April 4, 1975

Dear Fellow Clubmembers,

Please forgive the delay in getting out this newsletter. However, with all the contests and other events going on, I'm sure you will understand.

First off, the next club meeting is at 7:30pm at Howard Johnson's on April 11th. This is the same Howard Johnson's that we had our last meeting at and it is located on I45 in Southeast Houston, near the wayside exit on the north side of the freeway.

Also we have two new member-elects to vote on. They are Tom, WB5IFY and Marshall, WN5MYO. Both Tom and Marshall have attended the last few club meetings and I hope everyone has had an opportunity to meet them. Because of the late date, I will accept ballot returns up to and including the meeting of April 11th.

Dave, WA5ZNY, will be handling bulk club mailings to some of the DX QSL bureaus. This will be a lot cheaper than everyone mailing their own cards out. The bureaus handled will be the German, RSGB, USSR and Japanese. So bring all the cards you have going to these bureaus to the club meeting so that Dave can pick them up. Please separate them by country and count them before turning them in.

Tom, WA5LES, says if you haven't already mailed it, bring your ARRL questionnaire in with you to the meeting. Perhaps we will be able to formulate a club response to it.

Also, if you haven't already mailed your DX contest summary sheet copies to me, you can bring them in with you to the meeting. No matter how small your score is, please turn it in for the club. We need them all.

There are a few members that still need to pay their club dues for 1975. The ones of you who do will find your newsletter so marked.

This is the first newsletter that doesn't include a stamped return envelope. A SAE will be included however. This is something that the membership voted for at the last meeting and I hope it works out.

Well, I hope everyone makes it to the meeting. Everyone who does will be in for a pleasant surprise. That's all I will say for now.

I hope that I haven't left anything out. If so maybe it could be brought out at the meeting. See you there!!
